

## About Our School

In the Medieval times, India witnessed many social evils. It was also backward culturally and politically. Lack of Education was one of the major reasons. It was then realized by Maharishi Dayanand Saraswati had that salvation laid in educating the masses. So he contributed a lot to empower and enlighten the people of Indian society before attainment of Samadhi.

Later, Lala Lajpat Rai, Pt. Gurudutt Vidyarthi and Mahatma Hans Raj – a group of socially-oriented and enlightened Arya Samajis took initiative of reforming the Indian society. They decided to establish an Education Trust to run schools and colleges to perpetuate the memory to this great man and his teachings. Thus, came into existence the DAV College Trust and Management Society.
